M Sarath Gamini De Silva¹

Working thousands of miles apart
Yet practising the same noble art
To relieve suffering playing our part
Keeping updated we have been smart

Over the years we have managed to meet
In your cooler climes or Colombo's heat
For intellectual pursuit, has been a treat
In productive harmony our hearts beat

For many years we have been close
For mutual benefit whenever we chose
Grasping opportunities as they arose
Fruitful interaction, having a good dose

Doing the very best for our membership
While promoting everlasting friendship
Granting opportunities for scholarship
I thank you for the honorary fellowship

We have interests so wide and diverse
To academic stagnation we are averse
Whatever we gained let us not reverse
Greetings from Sri Lanka
I bring in verse
